

## **FEE SCHEDULE UPDATE OCTOBER 1, 2010**

### **INPATIENT SERVICES**

The *Mississippi Base Rate as of October 1, 2010 is \$10,328.22*. This base rate will be used to calculate the reimbursement of a Mississippi Workers' Compensation hospital claim for all discharge dates on or after October 1, 2010.

The maximum reimbursement for an inpatient claim is determined by multiplying the Mississippi base rate times the current (FY 2010) MS-DRG relative weight.

### **OUTLIER PAYMENTS**

The formula for determining the outlier threshold for each facility remains the same but the Medicare outlier fixed loss threshold and the facility cost to charge ratios were revised October 1, 2010. Effective for discharge dates from and after October 1, 2010, *the Medicare outlier fixed loss threshold is \$23,075.00*.

The current hospital cost to charge ratio table is found on the CMS website, Impact File for IPPS FY 2011 Final Rule, column AB.

A table showing the cost to charge ratio for Mississippi hospitals is also found on the next page.

### **OUTPATIENT SERVICES**

The *Mississippi Base Rate for all outpatient services will remain at \$91.19*, unless and until this rate is changed by the Commission. The Base Rate for all outpatient services will not automatically update in accordance with changes by CMS to the Medicare base rate.
