

FEE SCHEDULE UPDATE OCTOBER 1, 2011

INPATIENT SERVICES

The *Mississippi Inpatient Base Rate as of October 1, 2011 is \$10,419.48*. This base rate will be used to calculate the reimbursement of a Mississippi Workers' Compensation inpatient hospital claim for all discharge dates on or after October 1, 2011.

The maximum reimbursement for an inpatient claim is determined by multiplying the Mississippi base rate times the current (FY 2011) MS-DRG relative weight. The most current DRG Relative Weight table is included with this update.

OUTLIER PAYMENTS

The formula for determining the outlier threshold for each facility remains the same but the Medicare outlier fixed loss threshold and the facility cost to charge ratios were revised October 1, 2011. Effective for discharge dates from and after October 1, 2011, the Medicare outlier fixed loss threshold is **\$22,385.00**.

The current hospital cost to charge ratio table can be found on the CMS website. However, a table showing the most current cost to charge ratios for Mississippi hospitals is also found on the next page.

A table showing the historical summary of our Inpatient Base Rates and corresponding Medicare outlier thresholds since August 1, 2007 is also included.

OUTPATIENT SERVICES

The *Mississippi Base Rate for all outpatient services will remain at \$91.19*, unless and until this rate is changed by the Commission. The Base Rate for all outpatient services will not automatically update in accordance with changes by CMS to the Medicare base rate.

ALERT: *On page 590 of the 2010 Fee Schedule, part C, it is stated that "All 'C' status and 'E' status codes shall be paid using a relative weight of twenty-three (23)." For some reason which we have not yet been able to determine, there are many service and procedure codes in the current Schedule which show an APC Amount of \$2097.37 (relative weight of 23 x \$91.19 = \$2097.37). In many cases, this APC Amount is obviously disproportionate to the service being rendered, and in many cases this fee has been assigned to codes which are not designated as payment status "C" or "E" codes. For example, HCPCS Code V5362 and V5363, for speech screening and language screening, respectively, each have an assigned APC Amount of \$2,097.37. These codes are assigned as payment status indicator "N" codes. Similarly, code 97005 in the Physical Medicine section is for athletic training evaluation and carries a professional reimbursement rate of \$46.34, but an APC Amount of \$2,097.37. This code is not a "C" or "E" status code.*

For any service or procedure codes in the 2010 MS Workers' Compensation Medical Fee Schedule which list an APC payment of \$2,097.37, make sure this Fee is in fact proportionate to the service provided, or that it's payment status indicator is either "C" or "E". If neither of these apply, then you may either negotiate a fee with the facility, if one is in fact due, or pay according the "usual and customary" amount as defined in our Fee Schedule or the billed charge, whichever is less. The Commission is working to get these errors corrected as quickly as possible.
